ALAA EDDINE ROUCADI

Senior AI Product & Delivery Manager / AI Operating Model Architect | Enterprise Transformation & Governance Nice, France — Open to Full Remote (Europe / EMEA) | +33 06-32-76-87-64 | alaaeddineroucadi@gmail.com | https://www.linkedin.com/in/alaaeddineroucadi/ --- ## Professional Summary Senior senior / lead / executive director tier (10+ yoe) leader with extensive track record governing large-scale delivery, modern operating models, and engineering execution. Brings verified enterprise telemetry: Banking CoE Scale (Governed 3 banking tribes and 7 squads (~50 engineers/POs) across 3 AI product streams.); Agentic SDLC & Tooling (Shipped Atlassian Rovo AI Agents and Claude Code with Spec-Driven Development (SDD) guardrails.); Alignify Custom Jira App (Created Alignify, a custom internal Jira portfolio dependency application for cross-tribe delivery.). Specialized in driving predictable delivery across multi-team ecosystems, enforcing engineering guardrails, and aligning technical architecture directly with executive commercial objectives. --- ## Core Competencies & Value Proposition - **Large-Scale Operating Model Transformation**: Multi-tribe Agile-at-scale governance (SAFe, LeSS, Spotify Model), joint Program Increment (PI) planning, Value Stream Mapping, and continuous delivery maturity coaching.

- **AI-Augmented SDLC & Agentic Workflows**: Rollout and operational integration of Atlassian Rovo agents and agentic development assistants across Jira workflows, Definition-of-Ready (DoR) gates, and backlog refinement.
