

ALAA EDDINE ROUCADI

AI-Driven Agile Coach & Delivery Manager | SAFe/LeSS Delivery, AI Product Squads & Operating Models

Nice, France (Open to Remote Europe/EMEA) • +33 06-32-76-87-64 • alaaeddineroucadi@gmail.com • linkedin.com/in/alaeddineroucadi

PROFESSIONAL SUMMARY

Agile Delivery Manager, Senior Scrum Master, and Agile Coach with 10+ years of experience empowering cross-functional engineering teams, including 4+ years embedding agile delivery discipline inside AI-driven product environments. Proven track record coaching multi-squad divisions (SAFe, LeSS, Spotify Model) across enterprise banking, insurance, real estate, and hospitality sectors. In a regulated banking ecosystem, coached AI product squads developing ML fraud detection, financial forecasting, GenAI sales assistants, and chatbots (OpenAI + IBM), while governing data lake accessibility and administering Jira Cloud architecture (including shipping custom portfolio app Alignify). Expert at bridging business strategy, engineering delivery, and team adoption without over-claiming unverified technical engineering roles.

WORK EXPERIENCE

Wemanity (Enterprise Banking Mandate)

Remote | Dec 2021 – Present

AI-Driven Agile Coach & Agile Transformation Consultant

- **Coached AI-focused product squads across 2 banking tribes** (Data & Digital Enablers Tribe, Supply Chain Finance Tribe) spanning **7 squads** (~50 engineers and POs), driving delivery alignment and agile maturity across innovative AI initiatives.
- **Embedded agile delivery practices for 5 core AI product streams**: GenAI Applications (sales speech copilot agents), AI Fraud Detection (internal ML monitoring), AI Finance (predictive forecasting models), AI Chatbots (OpenAI + IBM solutions), and Digital Processing & OCR.
- **Governed centralized Data Lake & Data Warehouse standards**, ensuring robust data governance, compliance, and clean accessibility for AI model training, reporting universes, and executive dashboards.
- **Co-organized and facilitated Agile-at-scale ceremonies**, leading Program Increment (PI) Planning, Increment Reviews, and Inspect & Adapt (I&A) retrospectives across both tribes to lift delivery predictability by 25%.
- **Administered Jira Cloud instances and architected an in-house Jira app (Alignify)** for portfolio roadmap management, dependency mapping, automated alerting, and epic planning assistance — eliminating 4 hours/week of manual portfolio reporting.
- **Facilitated discovery workshops** (Product Vision Mapping, Story Mapping, Value Stream Mapping) and delivered training on Modern Agile (Scrum, Kanban, Agile Metrics, OKRs).

Environment: Scaled Agile (SAFe + Spotify Model), GenAI Applications (OpenAI + IBM), ML Fraud Detection, Financial Forecasting, Data Lake & Warehouse, Jira Cloud Administration, Alignify, Confluence, Miro.

Axel Springer

Paris, France | Sep 2019 – Dec 2021

Scrum Master & Agile Delivery Leader

- **Led 2 feature teams through architectural transformation from monolith to microservices on AWS**, establishing delivery foundation for a B2B real estate platform used by **10,000+ property professionals**.
- **Empowered Product Owners in backlog refinement and product vision definition**, ensuring technical delivery aligned with business objectives for property broadcasting and portfolio management.
- **Implemented Spotify Squads Health Check model across 3 squads**, diagnosing delivery bottlenecks, removing 6 recurring blockers, and empowering teams to self-manage effectively (20% score gain).
- **Instituted predictability tracking and Agile indicators** (velocity, sprint burndown), raising sprint commitment accuracy from 60% to 82% over 10 consecutive sprints.
- **Fostered "3 Amigos" mindset** (Dev / QA / Product) to bridge functional gaps, cutting defect leakage to production by 25%.

Environment: Scrum of Scrums, BDD, TDD, XP (Code review, Refactoring, CI/CD), Clean Architecture, .NET Core, Web API, Microservices, AWS, GitHub, TeamCity, Octopus, Docker.

SwissCaution

Nyon, Switzerland | Jun 2018 – Sep 2019

Scrum Master & Agile Delivery Lead (LeSS)

- **Co-facilitated Large-Scale Scrum (LeSS) ceremonies** across **3 cross-functional teams** building a B2C rent-guarantee platform (premium computation, promotional campaigns, commission management), driving a 20% improvement in cross-team delivery alignment.
- **Organized technical excellence workshops**, running Event Storming and Mob Programming sessions to spark team creativity and shared domain understanding.
- **Delivered technical coaching on TDD and Hexagonal Architecture**, empowering 8 engineers to build resilient software and cutting production defects by 25%.
- **Sustained delivery reliability** at an 85% sprint goal completion rate across 30+ consecutive sprints by facilitating core Scrum events.

Environment: LeSS, TDD, XP (Pair programming, Mob programming, Code review, Refactoring, CI/CD), Hexagonal Architecture, .NET Core, Web API, Vue.js, JavaScript, Jenkins, Kibana, Docker Swarm.

Scrum Master, Development Leader & .NET Tech Lead

- **Amadeus (2016–2018):** Led delivery for 9-person squad building Property Management System, sustaining 86% on-time delivery across 60+ sprints. Facilitated Scrum of Scrums across 4 teams, cutting lead time by 25%.
- **Capgemini (2013–2015):** Led 4-person engineering team delivering facility management intervention system (mobile app + portal), cutting release cycle time by 40%. Supported presales consulting engagements and technical scoping.

SKILLS & ENVIRONMENT

Agile & Delivery Management	SAFe, Spotify Model, LeSS, Scrum of Scrums, Scrum, XP, Kanban, Agile Coaching, Delivery Process Management, OKRs, Value Stream Mapping
AI Environment & Product Coaching	Coaching AI Squads (GenAI Applications, ML Fraud Detection, Financial Forecasting, OpenAI+IBM Chatbots), Data Lake & Warehouse Governance
Technical & Architectural Awareness	Microservices Architecture, Clean Architecture, Hexagonal Architecture, BDD, TDD, DDD, Software Craftsmanship, CI/CD, Mob Programming
Technical Stack	.NET Core, C#, Web API, Python, Vue.js, JavaScript, HTML5, CSS3, AWS, Docker, Azure OpenAI Basics
Tools & Platforms	Jira Cloud Administration, Alignify (Custom Jira App), Confluence, Miro, Planview, TeamCity, Octopus, Jenkins, Bitbucket, GitLab

CERTIFICATIONS & EDUCATION

Certifications: Certified Professional – Agile Coaching (ICAgile) • Certified Professional – Agile Team Facilitation (ICAgile) • Certified OKR Foundation (OKR Institute) • AI for Product Management (Mind The Product) • Generative AI for Business (Microsoft Azure OpenAI)

Education: Master 2 IT Management (IAE Lyon, 2013) • Engineering Degree in Software Engineering (INSA Toulouse / ENSA Marrakech, 2012)

Languages & Interests: French & Arabic (Bilingual), English (Fluent) • Agile Playground meetups, Coding Dojo organizer (2014-2019), Football (Jeux de Sophia league), Swimming, Ping Pong
