Professional Summary

Transformation Agile Coach, Senior Scrum Master and Agile Delivery Manager with 10+ years of experience empowering cross-functional teams, including in AI-driven environments. Expert in scaling Agile practices and driving digital transformation in banking, insurance, real estate, and hospitality sectors. Passionate about fostering innovation through technology and collaboration, with a strong focus on DevOps, and portfolio management.

Experiences

AI Driven Agile Coach | Agile Transformation Consultant – Wemanity – Remote (*Since 12/2021*)

Transforming Agile Practices & Empowering AI-Driven Agile Teams in a Banking Ecosystem

Key responsibilities:

- Acted as an **Agile Coach** for two AI-focused product tribes, fostering innovation and adaptability in **AI-driven initiatives**.
- Co-organized and facilitated Program Increment (**PI**) Planning, Increment Reviews, and Inspect & Adapt (**I&A**) Retrospectives to **align** teams across the organization.
- Partnered with Product Managers/Owners to define and communicate product visions, goals, and roadmaps tailored to **AI** applications such as fraud detection, financial forecasting, and generative AI.
- Led Scrum of Scrums sessions to monitor progress, manage cross-team dependencies, and mitigate risks using dashboards for enhanced visibility.
- **Administered Jira** Cloud instances, optimizing projects, workflows, and automations to support **Agile@Sacle** deployment including implementing an **in-house Jira app** (*Alignify*) for roadmap management, portfolio insights, dependency mapping, alerting, and epic planning assistance.
- Facilitated workshops (**Product Vision** Mapping, Story Mapping, **Value Stream** Mapping) to drive innovation and alignment.
- Delivered training sessions on Modern **Agile practices**: Scrum, Kanban, Agile Metrics, OKRs.
- Co-organized and facilitated **Community Of Practice** events, including serious games to foster collaboration and shared learning.

Context:

In a fast-paced banking environment, I coached AI squads responsible for developing innovative solutions such as:

- **AI Fraud Detection**: Internal fraud monitoring systems powered by machine learning algorithms.
- **AI Finance**: Financial forecasting models leveraging predictive analytics.
- **Gen-AI Applications**: **AI agents** that assist sales teams with sales speech by analysing customer data.
- **Chatbots**: **AI-powered** chatbots combining OpenAI technologies and IBM solution to enhance customer interactions.
- **Digital Processing**: **OCR** integration and automated workflows to streamline document handling and decision-making.
- **Data Lake & Data Warehouse**: Building and governing a centralized data lake, ensuring robust data governance, compliance, accessibility for **AI model training** and reporting universes and dashboards for actionable insights and strategic decision-making.

Environment:

- *Scaled Agile (In-house SAFe + Spotify Model), Scrum, Kanban, OKR, AI, Product Management.*

Scrum Master /Agile Coach | Agile delivery Leader – Axel Springer – Paris – France (09/2019 - 12/2021)

Driving Agility in Real Estate Technology

Key responsibilities:

- Led two feature teams through a transformation from a monolithic architecture to **microservices**, aligning with **Agile** principles and fostering a culture of **continuous improvement**.
- Empowered Product Owners to refine **backlogs** and articulate product **vision**, ensuring alignment with business objectives and user needs.
- Co-facilitated **Scrum** Masters' cycles to remove impediments, promote cross-team collaboration, and enhance delivery efficiency.
- Played a pivotal role in migrating legacy systems to **AWS**, coordinating with stakeholders to ensure minimal disruption and maximum scalability.
- Fostered a "**3 Amigos**" mindset to bridge gaps between development, testing, and product teams, enhancing quality and feedback loops.
- Implemented the Spotify Squads **Health Check** model to identify bottlenecks and empower teams to self-manage effectively.
- Provided Agile **indicators** to track predictability and drive iterative improvements, ensuring consistent delivery of high-quality increments.

Context:

- In a B2B real estate context, I coached and managed the delivery of a web platform, empowering professionals to broadcast rental announcements, manage property portfolios, and track inquiries—focusing on scalability, compliance, and user-centric design.

Environment:

- *Scrum of Scrums, BDD, TDD, XP (Code review, Refactoring, CI/CD), Clean Architecture.*
- *Technologies & Tools: .Net Core, Web API, Microservices, AWS, GitHub, TeamCity, Octopus, Docker.*

Scrum Master| Servant Leader – SwissCaution – Nyon – Switzerland (06/2018 - 09/2019)

Fostering Collaboration in Rent Guarantee Solutions

Key responsibilities:

- Acted as a **servant leader** for a cross-functional team, fostering a culture of trust and open communication to address challenges without blame.
- Supported the Product Owner in **backlog** management and **vision** sharing, ensuring clarity and alignment across the team.
- Co-facilitated Large-Scale Scrum (**LeSS**) ceremonies, including Multi-Team Product Backlog Refinements and Overall Retrospectives, to drive collective ownership.
- Facilitated Scrum events (Sprint Planning, Daily Standups, Sprint Reviews, Retrospectives) to maintain transparency and accountability.
- Organized workshops like **Event Storming** and Mob Programming to spark creativity and technical excellence.
- Delivered technical coaching on **TDD** and **Hexagonal Architecture**, empowering the team to deliver robust solutions.

Context:

- In a B2C insurance context, I coached and led a team responsible for developing a rent guarantee platform for tenants, agencies, and partners—delivering features such as premium computation, promotional campaigns, and commission management.

Environment:

- *LeSS, TDD, XP (Pair programming, Mob programming, Code review, Refactoring, CI/CD), Hexagonal architecture.*
- *Technologies & Tools: .Net Core, Web API, Open API, Vue.js, Jenkins, Kibana, Portainer, Docker Swarm, Nginx.*

Scrum Master | Development Leader – AMADEUS – Sophia Antipolis – France (*01/2016 - 06/2018*)

Enabling Property Management Excellence

Key responsibilities:

- **Coached** a squad of seven developers and two QA specialists, instilling Agile principles to sustain a steady **delivery** pace.
- Collaborated closely with the Product Owner to build, refine, and prioritize the **backlog**, ensuring alignment with **business goals**.
- **Facilitated Scrum** events to maintain transparency and foster effective communication within the team and at the Scrum of Scrum level.
- Contributed to the development of a Property Management System, enabling segmentation, brand configuration, vendor profile administration, and CRS integration.

Context:

- In a hospitality tech context, I coached and led a team responsible for developing a Property Management System—enabling hotel operators to manage property segmentation, configure brand settings, administer vendor profiles, and integrate with the Central Reservation System.

Environment:

- *Scrum of Scrums, TDD, XP (Pair programming, Code review, Refactoring, CI/CD)*
- *Technologies & Tools:* .Net Core, Python, Vue.js, Web API, Swagger, JIRA, Confluence, Bitbucket, Jenkins.

.Net Technical Lead | Development Engineer – CAPGEMINI – Sophia Antipolis – France (*10/2013 - 12/2015*)

Building Foundations for Facility Management

Key responsibilities:

- **Led** a team of four developers, designing and implementing **Continuous Integration** systems to streamline development workflows.
- Developed **SPAs** and **REST APIs** for an intervention management system, catering to field agents and administrators.
- Conducted **TDD** and **CI/CD** training sessions, promoting best practices and technical excellence.

Context:

- In a facility management context, I acted as technical leader and DevOps point of contact for an intervention management system—comprising a mobile app for field agents and an administration portal for configuring interventions, tracking activity, and generating reports.

Environment:

- *Scrum, TDD, XP (Pair programming, Code review, Refactoring, Continuous Integration).*
- *Technologies & Tools:* .Net, MVC, Web API, HTML 5, CSS 3, Xamarin, NUnit, Rhino Mocks, GitLab, Jenkins

Education

Master 2 Degree: IT Management (2012-2013)

IAE Lyon

Engineering Degree: Software engineering & Model driven engineering (2007-2012)

INSA Toulouse / ENSA Marrakech (Exchange Graduate Program)

Skills

- ▶ Agile approaches: **SAFe**, **Spotify Model**, **Scrum Of Scrums**, Scrum, XP, Kanban.
- ▶ Delivery process management.
- ▶ Development Practices: Agile Development, BDD, TDD, DDD, Software Craftsmanship
- ▶ Modern, Resilient and Scalable architectures.
- ▶ Continuous Integration, Continuous Delivery, Mob programming.
- ▶ JIRA Cloud Adminsitration, Confluence, Planview, Miro.
- ▶ Presales consulting.

Languages

- ▶ ***French/Arabic:*** Bilingual.
- ▶ ***English:*** Fluent (TOEIC in 2012, Basil Paterson Edinburgh Certificate in 2015).

Interests

Associative and events:

- ▶ Participation in the Agile Playground Ground meetups.
- ▶ Organization of **Coding dojo** events (2014-2019).
- ▶ Member of IAE Lyon Alumni.

Sports:

- ▶ ***Football:*** Participation in "Jeux de Sophia" football league: 2015 & 2016.
- ▶ ***Swimming***
- ▶ ***Ping Pong***
