

ALAA EDDINE ROUCADI

Senior AI Product & Delivery Manager / AI Operating Model Architect | JD 34 SCC Responsable Programme Strategique IA
Nice, France — Open to Full Remote (Europe / EMEA) | +33 06-32-76-87-64 | alaaeddineroucadi@gmail.com |
<https://www.linkedin.com/in/alaeddineroucadi/> --- ## Professional Summary Senior senior / lead / executive director
tier (10+ yoe) leader with extensive track record governing large-scale delivery, modern operating models, and
engineering execution. Brings verified enterprise telemetry: Banking CoE Scale (Governed 3 banking tribes and 7 squads
(~50 engineers/POs) across 3 AI product streams.); Agentic SDLC & Tooling (Shipped Atlassian Rovo AI Agents and
Claude Code with Spec-Driven Development (SDD) guardrails.); Alignify Custom Jira App (Created Alignify, a custom
internal Jira portfolio dependency application for cross-tribe delivery.). Specialized in driving predictable delivery across
multi-team ecosystems, enforcing engineering guardrails, and aligning technical architecture directly with executive
commercial objectives. --- ## Core Competencies & Value Proposition - **Large-Scale Operating Model
Transformation***: Multi-tribe Agile-at-scale governance (SAFe, LeSS, Spotify Model), joint Program Increment (PI)
planning, Value Stream Mapping, and continuous delivery maturity coaching.

- **AI Governance & Engineering Hygiene***: Guardrail frameworks for agentic coding tools (Claude Code), enforcing Spec-Driven Development (SDD), mandatory peer review disciplines, automated test gates, and EU AI Act risk tiering.
